Comments from the President

POSITIVE RESULTS

RNB displayed positive operating income of SEK 23 M during the first quarter of 2014/2015, which represented an improvement of SEK 14 M, compared to the first quarter of the previous year. We are continuing the profit improvement trend and RNB has displayed positive operating income for four of the five past quarters. The work on implementation of the turnaround plans for Brothers and PO.P in Holland and the integration work with PO.P in Norway are continuing as planned and are gradually delivering results. My view is that the coming year will be characterized by a continued strong market climate, which will support a continued positive sales trend. Taken together, this gives us a good basis for achieving a significant improvement in profit this year compared to the previous year.

STRONG COLLECTIONS ARE KEEPING UP SALES

The RNB Group's sales in comparable stores increased by 4.5 percent during the first quarter, which was considerably better than the market, which showed a decrease of 2.2 percent according to HUI. All three concepts are growing faster than the market and Brothers performed particularly well during the quarter. The unusual warm fall weather had a negative impact on the market and also on sales in Brothers and PO.P since customers chose to defer purchases of outdoor garments and functional clothing. Even though sales of outdoor garments and functional clothing were weak during the period, this was more than offset by strong sales increases in other categories. Yet again, this is confirmation that we have strong collections in PO.P and particularly in Brothers.

POLARN O. PYRET ON THE RIGHT TRACK

The Swedish Operations in Polarn O. Pyret continue to perform well and capture market shares in relevant segments. It should be noted that e-commerce made a strong contribution to the positive trend. PO.P has strong collections and an attractive range that support a continued strong performance. In PO.P Norway, the integration work is progressing, but sales have still not really gained momentum. What is positive though is that the non-recurring effects, which were charged to earnings during the previous year are now finished. In PO.P Holland, the turnaround work is moving forward and sales have improved. However, we are still at a much too low level in terms of sales in Holland. We are continuing to implement turnaround and integration plans with full force and we will see gradual earnings improvements for PO.P in Norway and Holland during the year.

DSE IS STILL STABLE

DSE is well-run and performed positively even though we saw marginally weaker earnings in the first quarter compared to the year-earlier period. We are continuing to invest in retail space and the plan for the fiscal year also includes conversion

of a number of departments, which will gradually strengthen sales during the year and going forward. The supplier portfolio has recently been strengthened with the BCBGMAXAZRIA brand and we will launch additional new brands during the current fiscal year.

ON THE WAY TOWARDS THE NEXT MILESTONE

Our positive performance is continuing and we are working purposefully towards reaching the next milestone. We have clear, carefully prepared plans and our operations are infused with creativity and energy. Everything is carried out based on strong teamwork where the entire organization is cooperating better and better in order to deliver strong value propositions to our customers.

We also note that the role of e-commerce is continuing to be more and more important, both as a sales channel in combination with our physical stores and as an integrated part of the digital communication with our customers. This is a prioritized area for us during the current fiscal year and going forward.

When this report for the first quarter is published we will be in the final days of the Christmas trade. This is a very important period of the year for our industry and we are also looking forward with confidence to a strong Christmas for retail this year.

Revenue and earnings, RNB Group

FIRST QUARTER SEPTEMBER 1, 2014 – NOVEMBER 30, 2014

Reported net sales for the Group's remaining concepts during the first quarter of the year increased, from SEK 484 M in the previous year to SEK 509 M in the first quarter of this year, equivalent to an increase of 5.2 percent. Excluding the discontinuation of Sisters, sales in RNB's three concepts increased by 8 percent in total. Compared to the year-earlier period, net sales decreased from SEK 595 M to SEK 509 M including JC. The sales trend during the quarter was positive for RNB overall, despite limited price activities, with comparable stores in Sweden displaying a total increase of 4.5% (HUI -2.2%).

Gross margin during the quarter for remaining operations was 54.5 percent (52.3), with improvements compared to the previous year in Brothers and Polarn O. Pyret. The increased gross margin in the business area Polarn O. Pyret is

explained by the changed mix of franchisee and own stores. Well-received collections and strong sales, combined with limited price activities during the quarter, contributed to increased gross margins. Total gross profit for the Group increased compared to the previous year, while other revenue increased (revenue in the previous year included some adjustment items connected to the divestment of JC). Total overhead costs increased compared to the previous year, mainly due to the acquired Norwegian operations in Polarn O. Pyret.

Operating income amounted to SEK 23 M (9, including the divested operation (JC)).

Financial expenses amounted to SEK -4 M (-2) and profit before tax, including the divested operation (JC), amounted to SEK 22 M (7). Profit after tax including the divested operation amounted to SEK 22 M (6).

Unrealized results on futures contracts affected earnings by SEK 1 M (0).

BROTHERS

Brothers is a volume-oriented comprehensive concept for men and the business area has a total of 77 (86) stores, of which 27 (29) are operated by franchisees. Sisters has been closed down.

FIRST QUARTER SEPTEMBER 1, 2014 – NOVEMBER 30, 2014

Net sales for Brothers totaled SEK 115 M (122), a decrease of 6.1 percent. The decrease was explained by falling sales in Sisters. Sales in comparable proprietary stores in Sweden and Finland increased by 11.1 percent in total.

Net sales in Brothers showed an increase in proprietary stores during the quarter, while sales on the franchise side fell.

Total brand sales (total sales to consumers, excluding VAT, in all markets and distribution channels) amounted to SEK 571 M (625), measured on a rolling 12-month basis.

Gross margin for the business area continued to increase compared to the previous year. Limited price activities in combination with strong demand for fall and winter products

had a positive effect on gross margins, and like the increased sales, contributed to increased gross profit.

Overhead costs for Brothers have continued to decrease, both in the stores and in head office functions. The closure of Sisters stores also contributed to the cost reductions.

Operating income totaled SEK -3 M (-10).

The quality and level of inventories continued to develop favorably, however, with increased levels during the quarter, due to increased purchase volumes, and also partly as a result of advance deliveries of spring products.

DEPARTMENTS & STORES

The business area comprises operations at the department stores NK Stockholm and NK Gothenburg. The number of proprietary stores at the end of the period was 45 (45).

FIRST QUARTER SEPTEMBER 1, 2014 – NOVEMBER 30, 2014

Net sales in the Departments & Stores business area amounted to SEK 229 M (218), an increase of 4.8 percent. Sales increased in both Stockholm and Gothenburg, and the performance in Gothenburg was particularly strong.

Gross profit in the NK department stores rose due to the increase in sales, despite some weakening of the gross margin, among other things, as a result of the currency trend, which had a negative effect on purchasing costs from international suppliers.

Overhead costs showed some increases compared to the previous year in stores and in head office functions, due to contractual increases in costs of premises (stores) and increases in personnel expenses and some non-recurring costs also arose during the first quarter.

Operating income amounted to SEK 17 M (18), with an operating margin of 7.6 percent (8.4).

The business area's inventories increased during the quarter, due to additional purchasing, increased deliveries for certain more exclusive brands, and altered contractual terms where Departments & Stores has changed to holding inventories for certain brands.

POLARN O. PYRET

Polarn O. Pyret is a brand focused on baby and children's wear and comprises 145 stores, of which 54 are franchise stores. Today, Polarn O. Pyret is established in 11 countries.

FIRST QUARTER SEPTEMBER 1, 2014 – NOVEMBER 30, 2014

Net sales in the period amounted to SEK 166 M (144), including a continued increase in sales in proprietary stores (partly explained by the acquired operations in Norway) and in the e-commerce business. Sales in comparable proprietary stores fell 1.2%, year-on-year. Franchise sales decreased on account of the acquisition in Norway, where sales have shifted to proprietary stores.

Brand sales (total sales to consumers, excluding VAT, in all markets and distribution channels) amounted to SEK 752 M (764), measured on a rolling 12-month basis.

Gross margin during the quarter increased compared to the year-earlier period, as a consequence of the fact that the Norwegian sales changed from franchise to proprietary stores. Gross margin development, in combination with increased sales, generated an improvement in gross profit.

Overhead costs for proprietary stores increased compared to the year-earlier period, due to the acquisition of the Norwegian operation.

Operating income totaled SEK 13 M (11). The result in Sweden clearly improved compared to the previous year despite the negative impact of lower franchise sales in Norway and some increased costs related to new operations abroad. The operations in Norway, which were acquired in January 2014, are now contributing positive quarterly results for the first time. The operation in the Netherlands, where the first store was established in the second quarter 2013/2014, continued to adversely affect the business area's result, although at a slower rate.

Inventory levels have increased, due to the acquired Norwegian operations (and also marginally due to the Dutch operations), but also as a consequence of increased purchasing. Current inventory levels are considered to be acceptable, with good quality and age structure.

The number of proprietary stores at the end of the period was 91 (63). In addition, there were 54 (78) franchise stores, including 7 (8) in Sweden and 47 (70) abroad.

Financial position and liquidity

The Group had total assets of SEK 1,050 M compared to SEK 1,030 M at the end of the previous fiscal year. Shareholders' equity amounted to SEK 288 M (266) at the end of the period, providing an equity/assets ratio of 27.4 percent (25.8).

At November 30, 2014, inventories totaled SEK 394 M (347), where all concepts increased their inventories.

Cash from operating activities amounted to SEK 6 M (-14). Working capital has been positively impacted by reduced trade receivables and other current receivables as well as by increases in trade payables, and so working capital (excl. inventories) increased by SEK 22 M. After investments, cash flow amounted to SEK 1 M (-20), corresponding to an increase of SEK 21 M compared to the equivalent period last year.

Net debt amounted to SEK 362 M compared to SEK 365 M during the year-earlier period.

The Group's cash and cash equivalents at the end of the period, including unutilized overdraft facilities, amounted to SEK 141 M compared to SEK 140 M at the end of the previous fiscal year.

INVESTMENTS, DEPRECIATION AND IMPAIRMENTS

Investments during the period, excluding investment in subsidiaries totaled SEK 11 M (8). Depreciation and impairments amounted to SEK -11 M (-13) excluding the divested operation.

PERSONNEL

The average number of employees during the period was 1,018 (1,325), including employees in divested operation and excluding employees in divested operation (JC) 1,018 (936).

NOTE 1 DISPOSAL GROUP THAT IS SOLD DISCONTINUED

In February 2013, RNB RETAIL AND BRANDS AB (publ) announced that the company was conducting a strategic review of the JC business area. One of the alternatives in this strategic review was a disposal of JC. In line with this, this alternative became a reality in September and RNB Retail and Brands entered into an agreement on divestment of JC to an external buyer. The sale was completed with effect from November 1, 2013.
