Comments from the CEO

INCREASED EARNINGS AND E-COMMERCE GROWTH OF 65 PERCENT

Despite the seasonally weak quarter, we were pleased to see that operating income increased by SEK 4 M to SEK 6 M. E-commerce sales increased by all of 65 percent in the quarter, demonstrating that our adaptations in e-commerce and digital communication are having the desired effects. Brothers' e-commerce sales doubled in the quarter, and Polarn O. Pyret were up by more than 40 percent.

We're also actively improving our stores to ensure a comprehensively modern value offering to our customers. Polarn O. Pyret opened a new flagship store in the PK building in central Stockholm at the beginning of the quarter, and also upgraded its stores in the Ringen mall in Stockholm and at Grensen in Oslo later in the quarter. At the start of the quarter, Brothers opened stores in Mall of Scandinavia and in the Bergvik, mall in Karlstad. Polarn O. Pyret closed one store in the quarter.

Departments & Stores is facing some challenges, as the digital communication and e-commerce development in collaboration with Hufvudstaden and NK is not progressing as intended.

RNB's overall sales growth amounted to +1.0 percent in comparable stores Sweden in the quarter, against Stilindex's (the Swedish Retail and Wholesale Trade Research Institute) 1.4 percent for the same period. Rolling 12-month operating income stands at SEK 54 M.

STRONG PROGRESS AND FURTHER POTENTIAL FOR POLARN O. PYRET

Polarn O. Pyret, which has an effective e-commerce offering, is significantly outperforming the market overall and for e-commerce specifically. The impact of PO.P's extensive reorientation was recognized in May, when the business area was awarded Loyalty program of the year by the Sweden Retail Awards.

Sales for comparable sales units grew by +10 percent in the quarter. E-commerce is progressing well, and comprised 16 percent of total sales in the quarter. Finland and Norway both saw improved earnings in year-on-year terms. Operating income for the quarter was SEK -2 M, up by just over SEK 3 M on the previous year. Rolling 12-month operating income was SEK 47 M, implying an operating margin of just over 6 percent.

PO.P's recently opened flagship store saw positive sales growth. PO.P will be opening a new store in the Gallerian shopping mall in central Stockholm in the fall, which is expected to significantly boost sales in the Stockholm city center.

BROTHERS FOCUSES ON E-COMMERCE AND DIGITAL COMMUNICATION

A partially new marketing team has allowed Brothers to step up the pace of its e-commerce and digital communication

initiatives. Brothers stands to benefit from digital development in largely the same way as PO.P, and the business area is focusing sharply on this objective.

Recruitment of new competences and a realigned plan for e-commerce and digital communication have increased the pace of adaptations, and significant results are expected over the coming period. An extensive customer survey that is currently underway will form the basis of extensive adaptations to the brand strategy. The new brand strategy will form an integral part of the reorientation work.

Sales for all national markets increased by +0.7 percent in the quarter. E-commerce sales almost doubled. Two new stores were opened at the beginning of the quarter. The store in Mall of Scandinavia made positive progress although sales for the store in Bergvik have not yet gathered momentum. A new store will open in the Gallerian mall in central Stockholm during the fall, which also for Brothers is expected to significantly impact sales in the Stockholm city center.

Seasonally strong operating income of SEK 14 M was up by SEK 4 M on the corresponding quarter in the previous year. Rolling 12-month operating income was SEK 21 M, implying an operating margin of just under 4 percent.

DEPARTMENTS & STORES IN COMPLEX REALIGNMENT

Visitor numbers continued to fall in the NK department stores in Stockholm and Gothenburg, and comparable sales were down by -2.5 percent in the quarter. Several factors influenced progress, which shadowed recent quarters. Construction work outside the NK department store in Stockholm, as well

as internal remodeling, negatively impacted operations. The primary factor was probably the expansion of e-commerce, and growing customer demand for this channel. NK doesn't offer an equivalent e-commerce option, and with many premium brands now available online, NK's offering is exposed to increased competition.

The extensive adaptations and improvements to NK in Stockholm are expected to have a positive impact once they've been completed, with full effect anticipated in 2020. However, effective e-commerce and digital communication channels will be required to reinstate competitiveness. The development of e-commerce operations is at the preparatory stage under NK's management. DSE has limited power to influence progress.

A seasonally weak operating income of SEK 4 M was in line with the previous year. Rolling 12-month operating income was SEK 35 M, implying an operating margin of 3.8 percent, against 4.4 percent in the previous year.

MAN OF A KIND FACES LOGISTICS PROBLEMS IN THE QUARTER

Logistics problems prevented Man of a kind from fulfilling a significant proportion of its orders, which implied a partial loss of potential sales volumes. Nevertheless, sales reached SEK 3 M in the quarter, against SEK 0 M in the corresponding quarter in the previous year.

Operating income was SEK -3 M, up by SEK 1 M year-on-year.

MARKET PROGRESS CHALLENGES CONCEPTS

RNB's value offering is facing significant challenges. The technology realignment process is important to our business operations and to the sector as a whole. To be successful, operators require clear brand profiling, effective e-commerce operations and good digital communication—as well as an excellent product and service offering that is unique and mirrors the brand positioning. These conditions are in place with Polarn O. Pyret. Conversely our NK operations in DSE are currently facing some challenges. Brothers has the right competences, an emerging plan and a sharp realignment focus. Brothers has good potential to develop positively.

RNB is making positive overall progress in challenging market conditions. Operating income was up on last year and is set to increase further looking ahead.

Auditor's review

RNB RETAIL AND BRANDS AB (PUBL), CORP. ID NO. 556495-4682

INTRODUCTION

We have performed an auditor's review of the financial information contained in this Interim Report for RNB RETAIL AND BRANDS AB (publ) as of May 31, 2018 and the nine-month period ended on this date. The Board of Directors and Chief Executive Officer are responsible for preparing and presenting this Interim Report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express our opinion on the basis of our Auditor's Review.

SCOPE AND FOCUS OF THE AUDITOR'S REVIEW

We have conducted our Auditor's Review in accordance with the International Standard on Review Engagements ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. The Auditor's Review includes making inquiries, mainly to persons responsible for financial and accounting matters, to analyze the information and to complete other audit review measures. The Auditor's Review has a different focus and a significantly reduced scope compared to the scope and focus of an audit in accordance with International Standards on Auditing and generally accepted accounting practice.

The measures completed in connection with the Auditor's Review do not enable us to assess with a degree of assurance that we have become aware of all significant circumstances that could have been identified in a full audit. Accordingly, the opinions stated on the basis of an Auditor's Review do not have the same degree of assurance as stated opinions on the basis of a full audit.

CONCLUSION

On the basis of our Auditor's Review, no circumstances have come to our attention that would give us cause to consider that the Interim Report has not, in essence, been prepared in accordance with IAS 34 and the Annual Accounts Act, and for the parent company, in accordance with the Annual Accounts Act.

Notes

NOTE 1 ACCOUNTING POLICIES

This report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Annual Accounts Act. The Interim Report for the Parent Company has been prepared in accordance with the Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2—Accounting for Legal Entities. The accounting policies applied correspond to the information provided in the Annual Report 2016/2017.

In the Interim Report, gross profit is reported separately, which diverges from the presentation in the Annual Report.

From the fourth quarter 2016/2017, hedge accounting has been applied where there is an effective link between hedged future cash flows and financial derivatives. This implies that value changes in currency derivatives where there is an effective link are presented under Other comprehensive income, in the line Cash flow hedges—value change, instead of being included under Financial items in the Income Statement. The change is forward-looking and has not been adjusted retroactively, as the measurement of hedge effectiveness was not initiated until the fourth quarter.

Furthermore, since the previous quarter, unrealized losses on currency hedges that fail to comply with hedge accounting are reported, in the Group, on a dedicated line under Net financial items.

New IFRS standards that have been issued but not yet become effective

IFRS 9 Financial Instruments, applies to financial years starting January 1, 2018, which for RNB Retail and Brands means the financial year 2018/2019. The preliminary assessment is that the standard will have an impact on the Financial Statements, mainly requirements pertaining to the information provided in Notes.

IFRS 15 Revenue from Customer Contracts, applies to financial years starting January 1, 2018, which for RNB Retail and Brands means the financial year 2018/2019. The company's preliminary assessment is that the standard will not imply any significant changes for the Group.

IFRS 16 Leases, applies to financial years starting January 1, 2019, which for RNB Retail and Brands means the financial year 2019/2020. The company's preliminary assessment is that the standard will significantly affect the Financial Statements as the standard will result in the reporting of material assets and liabilities attributed to the Group's rental agreements for its premises.

In the third quarter 2017/2018 Brothers reclassified re-invoiced rent from Net sales to Other operating income. Previous periods have been adjusted.

NOTE 2 FINANCIAL ASSETS AND LIABILITIES VALUED AT FAIR VALUE

The Group's financial instruments consist of cash and cash equivalents, trade receivables, accrued income, other receivables, trade payables, interest-bearing liabilities, accrued expenses, conditional purchase consideration and other liabilities and currency derivatives. Trade receivables and trade payables are reported at estimated fair value. Group borrowing is reported at accrued cost. Currency derivatives in the form of currency futures and currency options are valued at fair value based on the valuation of credit institutions in accordance with level 2 in the Fair value hierarchy.

The Group uses derivative instruments to manage currency risks in USD and EUR. From the fourth quarter 2016/2017, the reporting applies hedge accounting when there is an effective link between hedged future cash flows and financial derivatives. Furthermore, since the previous quarter, unrealized losses on currency hedges that fail to comply with hedge accounting are reported on a dedicated line under Net financial items.

Fair value of financial derivatives was SEK 23 (-1) M.
